

TP N°3

Dans cet exercice, nous allons voir comment créer un formulaire avec les nouveautés de HTML5 et CSS3. Le modèle de la page à créer est le suivant :

The image shows a web browser window with a registration form. The browser's address bar shows the file path: C:/Users/lenovo/Desktop/tp_web/HTML5/for... The form contains the following fields and elements:

- Fullname**: A text input field with the placeholder text "Enter Fullname".
- Username**: A text input field with the placeholder text "Enter username".
- Password**: A text input field with the placeholder text "Enter password (8 caractères alphanumérique)".
- Birthday**: A date input field with the placeholder text "jj/mm/aaaa" and a calendar icon.
- Pays**: A dropdown menu with "Tunisie" selected.
- Avatar**: A file upload area with a button "Choisir un fichier" and the text "Aucun fichier choisi".
- Nuité**: A text input field with the value "1".
- Tarif**: A text input field with the placeholder text "Tarif".
- Somme à Payer**: A text input field with the value "0".
- Buttons**: Two buttons at the bottom: a red "Cancel" button and a green "Create" button.
